

IMPROVE YOUR EMERGENCY DEPARTMENT MANAGEMENT

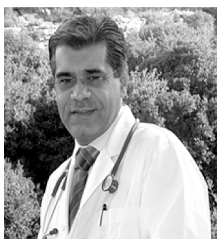

In collaboration with NEW HEALTH CONCEPT

Supported by the Lebanese Society for Emergency Medicine

EXPERT

NAGI SOUAIBY, MD, MPH, MHM

Dr Nagi Souaiby is an emergency medicine specialist graduated from the renewed Faculty of Medicine of Montpellier – France. He is also a forensic medicine and disaster medicine specialist from the universities of Paris and certified from the «Medical Council of Canada». Moreover, he had obtained a Master degree in “Hospital and Health Management” from ESA of Beirut – Paris VII.

Dr Souaiby is an advisor to the European Union, a lead training expert to the WHO and a Consultant to many UN agencies and institutions. He is the founder and president of the Lebanese Resuscitation Council, a former president of the Lebanese Society for Emergency Medicine and member of many international scientific societies.

At the academic level, Dr. Souaiby is the author of numerous articles and has tutored many university thesis and studies in his various fields of specialization. He transfers his know-how and experience to young students of medicine and nursing at the Lebanese University, Holy Spirit University of Kaslik and Saint Joseph University. He is the Chief Editor of Med Emergency, The Mediterranean Journal of Emergency Medicine and the Director of the National School for Emergency Care.
