

The National School for Emergency Care announces a new training session on:

Intensive Care and Emergency Medicine Soins Intensifs et Médecine d'Urgence

Objective: Development of practical tools and skills for care management in the ED and the ICU: evaluation, orientation, treatment and follow up.

Target: These courses are addressed to physicians and nurses working in ED / ICU department or in a pre-hospital setting (ambulances, Primary Health Care centers, etc.).

Certification: These courses allow the trainees to obtain “**Certificates of specialization**” accredited by the Ministry of Education in:

- Emergency Medicine techniques: تقنيات طب الطوارئ
- ICU techniques: تقنيات طب الانعاش
- Disaster Medicine Techniques: تقنيات طب الكوارث
- ED Management: ادارة أقسام الطوارئ

Methods and tools: 18 days workshops including all practical, administrative and clinical aspects of emergency and intensive Care. Interactive courses / Case reporting / hands on.
